ABOUT PATIO WORLD

Patio World is a local business, owned and operated by the Benck family. We have been involved in home improvements for over 30 years and our involvement in the Australian building industry spans more than 50 years. Over the years, we have been the leading patio supplier in Queensland.

We offer free no-obligation quotes on all our products. We pride ourselves on our prompt service, attention to detail, high quality products, fine workmanship and reliable after sales service. Our service to you is all encompassing and includes design of structures, drafting, council permits, installation, final inspections and written guarantee of both the installation and product guarantees where applicable.

★★★★★

The team were very professional. They were punctual, polite, tidy and knowledgeable. The finished product was exactly what we wanted and worth every cent! Our new verandah has improved our lifestyle immensely. I highly recommend Patio World for their service from start to finish and the piece of mind from their expert experience.

O & J Iliakis

ROOFING

Patio World is a leading roofing provider in Queensland, Australia, specialising in high-quality and durable roofing solutions for Queenslanders. With a wide range of roofing options, including high tensile steel, and insulated panels, Patio World offers versatile and stylish roofing solutions to enhance outdoor living spaces. Backed by exceptional customer service and expertise, Patio World is dedicated to delivering superior roofing products that withstand the unique weather conditions of Queensland.

Upgrading your carport or patio offers numerous benefits, enhancing both the functionality and aesthetics of your outdoor space. With a modern upgrade, you can create a sheltered area that protects your vehicles or provides a comfortable outdoor living space for relaxation and entertaining. Additionally, an upgraded carport or patio can increase the value of your property, making it more appealing to potential buyers and improving overall curb appeal.

ROOF STYLES

For your Patio or Carport there are a variety of roof styles you can choose from.

Skillion

A skillion patio is a contemporary and sleek outdoor structure with a single sloping roof, adding a modern touch to your outdoor living space.

Build Over Roof

Provides more liveable outdoor space with additional height, more light and greater airflow.

Gable

A gable patio features a classic pitched roof design, providing an elegant and timeless aesthetic to your outdoor area.

Free Standing

A freestanding patio is a versatile and independent structure that can be placed anywhere in your outdoor space, offering flexibility and the opportunity to create a separate and distinct gathering area.

AVAILABLE COLOURS

White	Merino	Primose

ROOFING

APOLLO PATIOS

- Outdoor living and recreation
- Increase property value
- Personalised outdoor retreat

With our experience as a patio builder, we have gained the trust of many happy clients throughout Central and Northern Australia.

Patios provide another dimension in outdoor entertaining by turning wasted outdoor space into a usable, protected and functional patio area. So now there is no need to move, with Patio World we can change your lifestyle without changing your address.

Patio World will complete the necessary plans and approval applications and submit them to council on your behalf. Our outdoor home additions are engineered to suit the most complex designs from skillion to gable, build over roof to free standing patios. All are built to suit Australian wind conditions from region 'A N1' to severe cyclonic region 'C3'.

We manufacture our products using quality materials, which is why we choose Apollo Patios roofing.

All our products are fully designed and engineered to cyclone standards for Queensland.

The roof sheeting is coated with the exclusive Apollo Durasheen® paint coat finish. The top side is finished with 55% gloss coating to reflect the solar rays and provide superior light reflection while minimising heat transfer and the underside has an 80% high gloss finish that reflects more light into your home. The underside is also resilient to mould growth and that means easy maintenance for you! Have peace of mind, the Apollo Durasheen® paint coat finish comes with a 15 year manufacturers backed warranty.

APOLLO CARPORTS

ROOFING

- ☑ **Protection from the elements**
- ☑ **Increased convenience**
- ☑ **Versatile usage**

Add value to your home while protecting yourself and your car from the elements, with a Patio World carport.

Every Patio World carport is custom designed to complement the style of your home, ensuring that it looks like it should have been there from the beginning.

Our design team will take into consideration your lifestyle and special needs. Four wheel drive, boat or caravan? We can raise the height or increase the size to suit your requirements by utilising our functional gable or skillion roofing systems.

We manufacture our products using quality materials, which is why we choose Apollo Patios roofing.

All our products are fully designed and engineered to cyclone standards.

★★★★★

We just wanted to say a huge thank you for our new patio and carport. Patio World has been a pleasure to deal with. From Gary's attention to detail in design, to the friendly girls over the phone, you've all been great, thank you.
A HUGE thank you to Keegan, he was very thorough in making sure that everything was finished to a high standard. We felt comfortable knowing that he was responsible for completing our patio and carport. It's not very often you get a tradesman who is so trustworthy, friendly and extremely competent.

ROOFING

INSULATED ROOFING

- ☑ **Energy savings**
- ☑ **Increased comfort**
- ☑ **Condensation control and moisture protection**

Patio World knows how important lifestyle and relaxation has become in our fast paced world. That's why we include a range of products designed to offer you flexibility, protection and most of all comfort and enjoyment.

Patio World's insulated roofing is a smart, all-in-one solution that integrates outdoor roofing, top-tier insulation, and a refined ceiling. This high-quality roofing harmoniously combines cutting-edge roofing technology with contemporary aesthetics, elevating the outdoor ambiance of your home.

It offers robust, long-lasting protection, ensuring comfortable and enjoyable outdoor experiences in all seasons. With a fire-resistant and insulated core, this roofing system minimizes heat transfer and shields against noise from rain and storms. Its energy-efficient insulation keeps your outdoor living space cool in summer and cozy in winter. Beyond year-round weather resistance, its innovative design maximizes your outdoor living area by reducing the need for support beams and posts, thus creating a larger outdoor space than you might expect.

Features of Insulated Roofing

- cost-effective low mainentance
- concealed ducting for electrical cables providing a cleaner finish
- sleek contemporary ceiling finish
- fewer beams means more open space
- minimise noise from rain and storms

ECLIPSE OPENING ROOF

ROOFING

- ☑ **Protection from the elements**
- ☑ **Increased convenience**
- ☑ **Versatile usage**

The Eclipse opening roof creates a visually sleek and versatile outdoor living area in all weather conditions.

Versatility
The Eclipse can be built as a commercial awning or patio cover, as a roof for glass or screened enclosures, or to cover a swimming pool.
The Eclipse Opening Roof can be installed flat, pitched, or used vertically as a privacy screen. The smooth flowing lines, together with an extensive colour range and choice of finishes, allows the Eclipse to blend brilliantly with any architectural style.

Comfort
In summer, block out the heat and keep cooling costs down by simply closing the roof or opening it partially for shaded ventilation.
In winter the slim line louvres can be positioned to allow the sun's natural warmth and light into rooms to save on energy costs. With the simple push of a button, the louvres can be moved to give the desired lighting level into a room, office or building.

Architectural
The Eclipse Opening Roof Range provides a reliable and stylish option to enhance the outdoor living areas of both residential and commercial developments.
The integrity of the Eclipse has been proven in both the national and international arena of architectural design.

Design
Whether it is a pitched or flat roof, you can design an Eclipse Opening Roof to suit the personal style of your home.
The Australian designed one-piece extruded aluminium louvre and stainless steel components are engineered to the highest standards, making the Eclipse suitable for extreme heat, strong winds and corrosive, coastal conditions.
Not only can the Eclipse lower your energy costs but provide many years of enjoyable trouble-free operation.

ADJUSTABLE SHUTTERS

- ☑ **Security and privacy control**
- ☑ **Control of light and ventilation**
- ☑ **Modern timeless design**

Adjustable shutters provide you with a fresh new perspective on the traditional shutter system. Sophisticated, elegant, traditional styled shutters that answer our modern needs. Combine the timeless design that is recognised for their elegance and practicality with modern materials and what you have is an attractive contemporary shutter solution.

Powder-coated aluminium is the product of choice for architects and designers when choosing the windows for homes and buildings, so it only makes sense to choose aluminium when selecting the best shutter for your home.

The system is an architecturally designed slimline blade constructed from powder coated aluminium. The shutters are designed for use in a range of internal and external applications including security, privacy control, noise reduction and the control of light and ventilation.

Features of the Shutters

- the strength of high quality aluminium
- finished in durable hard wearing powdercoat
- slimline frame to maximise vision
- T-Bar control at both ends of shutter blades
- cyclone rated, designed, engineered, built and certified by independent Australian engineers
- panels custom made to size
- maximum span of 1200m

Applications for the Shutters

- internal or external use
- adjustable shutter louvres allows control of light
- total adjustment for control of privacy and view
- water resistant shutters allows control of wind and rain
- can be fitted as either fixed or sliding panels
- secure entrances as hinged or bi-fold doors

AVAILABLE COLOURS

White	Black	Primose	Western Red Cedar

FIXED LOUVRES

- ☑ **Security and privacy control**
- ☑ **Low maintenance**
- ☑ **Shield from sun and rain**

Do you need an economical solution to your screening needs?

Whether you need a fixed louvre screen to protect an area from sun and rain, or you have to protect your vehicle from the elements, fixed louvre screens are the perfect solution.

The fixed louvre blades are positioned 75mm apart to allow greater airflow and more visibility from the inside, while still providing maximum protection and privacy.

As with our full range of privacy screens, fixed louvre screens are fabricated from low maintenance hard wearing powder coated aluminium.

Features of Fixed Louvres

- low maintenance hard wearing powdercoat finish
- modern architectural style
- high quality aluminium
- a range of powdercoat colours
- cyclone rated, designed, engineered, built and certified by independent Australian engineers
- panels custom made to size
- maximum span of 1200m

Application for the Fixed Louvres

- fixed screens for privacy and light control
- infill panels for walls and roof gables
- ask our experienced design consultant for other exciting applications

AVAILABLE COLOURS

White	Black	Primose	Western Red Cedar

SUNSET SCREENS

- ☑ **Aluminium architecturally styled panels**
- ☑ **Custom made to size**
- ☑ **Hard wearing and long lasting**

The range of Sunset Screens provides you with a choice of architecturally styled panels designed to provide your home with privacy, security and protection from the elements. Each of the styles – Jupiter, Saturn and Venus, have been carefully designed to achieve different functions and still enhance your living environment.

Features of the Sunset Screen range

- manufactured from strong, high grade aluminium that will not rust, warp or split
- hard wearing, long lasting, low maintenance, durable
- powdercoat finish
- brackets to allow direct fixing to buildings
- panels custom made to size
- a range of three styles to create options for privacy
- cyclone rated

Applications for the Sunset Screens

- to provide you with a privacy screen for a patio, pool or deck area
- fixed or sliding panels
- to create a security screen for carport, storage or outdoor living area
- provide partial shade to a living or entertainment area
- install gates and doors in matching material to meet all of your access needs

AVAILABLE COLOURS

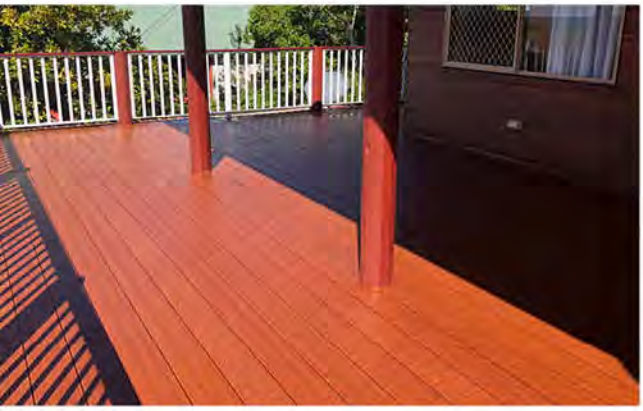
ALUMINIUM DECKING

- ☑ **No repainting or staining**
- ☑ **No termite or insect issues**
- ☑ **Environmentally friendly**



Our Aluminium Decking has been designed specifically for replacing timber decks and eliminating the problems of old timber decks. The installation method is quicker than the traditional installation of decking and stronger than timber.

Features of Aluminium Decking

- no termite or insect issues
- 5 year limited manufacturers warranty on powdercoat finish
- never needs repainting or staining, the colour remains rich and doesn't fade
- consistent colouring
- the decking doesn't splinter, crack or warp
- environmentally friendly
- tolerates extreme weather in heat and cold
- no more timber rot
- perfectly straight edges, seamless appearance
- stronger than timber
- fire resistant
- no more timber stains
- non slip ridges to prevent slip
- hidden fixings so you don't see the screws holding the decking down
- high quality aluminium

Applications for Aluminium Decking

- built tough for external use
- modern appearance
- water resistant with 1 degree camber for water dispersion
- perfect for deck on first floor acting as carport below
- can be applied to concrete slab

Western Red Cedar

BALUSTRADE

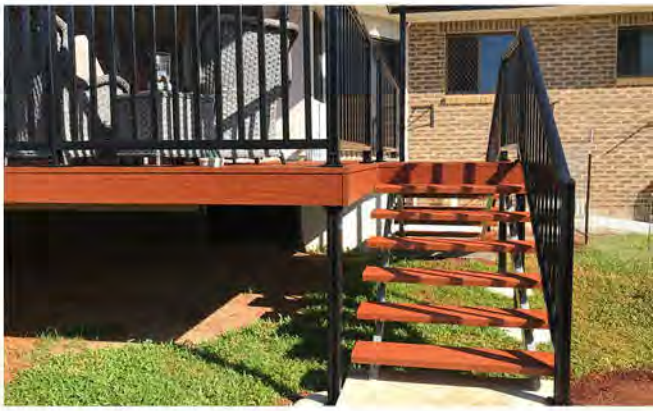
- ☑ **Durable high grade aluminium**
- ☑ **Use for decks and stairways**
- ☑ **Engineer tested and certified**

The Aluminium Balustrade system will provide you with a smart modern balustrade that suits all styles of homes.

It is one of the few fully tested Balustrade Systems suitable for all uses, ie. apartments, offices, domestic and certain commercial applications. It is constructed from strong aluminium and finished in hard wearing powder coat, making it virtually maintenance free.
Aluminium Balustrade will give you many years of safe use for decks and stairways, as well as being economical, as it's designed to be built on site, saving costly delays.

Features of the Aluminium Balustrade

- manufactured from strong, high grade aluminium that will not rust or rot
- hard wearing, long lasting, maintenance free, durable powder coat finish
- engineer tested and certified to AS1170.
- baluster options:
  - 35 mm wide baluster – Strong and safe yet allows for a less restricted view
  - 90 mm wide baluster – Strong but with more privacy
- components for sloping stairways or level panels



Applications for the Aluminium Balustrade

- designed as an edge restraint for decks and landings
- designed for use on angled stairways or level decks
- create a barrier for pets or children to decks and patios
- easy to install components
- supply and installation service available

AVAILABLE COLOURS

White	Black	Primose	Western Red Cedar

SCREEN ENCLOSURES

- ☑ **Create a fully enclosed space**
- ☑ **Keep the insects out**
- ☑ **Use with our other products**

Patio World room enclosures are individually designed and built to architectural perfection, creating a space that will be change the way you and your family spend time together.

We offer a wide range of materials that can be used to create your enclosure; we will guide you through the design and planning process and take into consideration all your specific needs.

Whether you need to construct a fully enclosed space or you require a totally screened area to keep the insects out, Patio World will have the practical solution for you.

★★★★★

Great service by an excellent team! Right from the quote process through to installation! Love the finished product and wish I did it years ago. Thanks team!

J Clarke

★★★★★

Patio World was easy to deal with from start to finish, coming out for site visits to confirming everything before fabrication & the quality of the build was fantastic, we love our outdoor entertainment area, thank you Patio World on a fantastic job.

Words from our Customers

★★★★★

The team at Patio World Mackay provided excellent service from the beginning. The design consultation was thorough (and they were very patient with our changes), the communication throughout the build process could not be faulted and the product... well just have a look at the pics. Speaks for itself. We are very happy

C Morgan

★★★★★

Had 2 patio areas installed recently, super impressed with the job! They measured and provided a quote on the spot, provided a full set of drawings to review, handle all the council approvals etc. end design looks like original house construction which is what we wanted! Construction quality and finish was exactly like the drawings, no surprises! Attention to detail made for a professional finish, very happy!

Q Lawson

★★★★★

We were happy when Patio World said they'd call or come out they stuck to their word and kept us informed if any change. You don't get that a lot these days. From our first meeting for a quote to the final approval we had great service. While doing the plan the measurements was checked many times to make no mistakes. The construction of our caravan roof was done in good time, great workmanship and attention to detail. The workman were friendly and cleaned up well before leaving. The end product looks great, cool underneath as well as functional.

Alison

★★★★★

Everyone I dealt with at Patio World were very helpful and courteous. The whole process went very smoothly and the installation was completed well ahead of the planned installation date. I was kept in the loop and consulted during every stage of the process, and the completed project was to my expectations. Thanks to all the staff at Rockhampton Patio World for a job well done.
